## Skills

React Hook  
Next  
Vue  
Angular  
Typescript  
Express  
Redux  
Docker  
Mongodb  
Mysql  
Api Rest  
c#  
others

## Experience

Mowidev 2020-2021 full stack remote

I managed to learn c# in a short period of time of time for the development of a web site that required required security.

I managed to implement "SOLID javascript".

I was able to do unplanned fixes,  
Help new members.

Doogo 2019 2020 full stack js remote

Succeed in implementing mailing module,  
help a project in react native.  
Get to implement statistical graphs.

## Others

My web Nextjs Seo Nestjs GraphQL - actually

I just finished my first frontend sprint with nextjs+typescript+seo with language options en,es. My first sprint of my backend api+nestjs+graphql+typescript+orm is in process.

Docker 1/2 month

I focus to learn docker doing a practice as a final test in digital ocean to automatically generate ssl with nginx redirecting to a nodejs container as a plus I used terraform for automation to create the droplet and configuration.
