Experience

Mowidev 2020-2021 full stack remote
I managed to learn c# in a short period of time
of time for the development of a web site that
 required required security.

I managed to implement "SOLID javascript".
I was able to do unplanned fixes,
Help new members.

Doogo 2019 2020 full stack js remote
Succeed in implementing mailing module,
help a project in react native.
Get to implement statistical graphs.

Docker -2021
I focus to learn docker doing a practice as a final test in digital ocean to automatically
generate ssl with nginx redirecting to a nodejs container as a plus I used terraform
for automation to create the droplet and configuration.
